

# Crime Scene Investigation – The ‘Forensic’ Team Challenge

## Introduction

A foul murder has been committed, but no matter how hard the killer tried to cover their tracks, they left clues at the crime scene that will ultimately lead to their downfall, but can your teams find them in time and reveal the murderers identity?

In this unique interactive team challenge your colleagues will be part of the CSI team utilising methods and equipment currently employed by police forces in the UK and abroad including finger print identification, hair, fibre, and blood spatter analysis.

With meticulous attention to detail, the event is lead by your host, Detective Chief Inspector Cove and a professional forensic scientist and assistant who will teach your colleagues the methods and technicalities of CSI, hopefully leading them to their successful conclusion.

<b>Numbers per team:</b>	8 Maximum
<b>Even amount of teams required:</b>	No
<b>Indoor / Outdoor:</b>	Indoor only
<b>Duration:</b>	3 Hours

## Content / Itinerary

- After a briefing in the “incident room” from the DCI and instruction sessions on the use of CSI equipment, you will gather in your teams and dress in full protective scenes of crime officer clothing after which you visit the crime scene to gather your evidence, which you subsequently take back to the “lab” for analysis. You will then need to act as detectives to complete your case notes, unmask the murderer and finally conclude the case where your team could walk away with the top detective award.

# Crime Scene Investigation – The 'Forensic' Team Challenge ...continued
